### DESIGN AN ECO-WEDDING "DIXIE ECO-CHIC"

“Create an elegant and ‘eco-chic’ wedding made of all-natural or recycled products. This color palette—including the centerpiece, invitation, placecards and favors—was inspired by the rich hues of the Concord grape. The handcrafted invitation is printed on Lotka, an acid-free and earth friendly paper using resin-based solid ink, and made of 100% dupioni silk and a hand-flocked ribbon accent. The placecards, which double as favors, are printed on “plantable” seeded paper attached to miniature shovels on terracotta pots ready for planting.”
